

VIOLA MACCHI CASSIA

CURRICULUM VITAE

Date of Birth January 6, 1969, Milano (Italy)
2 children

Dipartimento di Psicologia
Università di Milano-Bicocca
Piazza dell'Ateneo Nuovo 1
20126 Milano, Italy.
Studio: +39 64483708
Lab: +39 0264483782
viola.macchicassia@unimib.it
<https://sites.google.com/site/labprima-infanzia/>
orcid ID: 0000-0002-9983-8254

ACADEMIC POSITION

- 2013-present. Vice-Director, Department of Psychology, University of Milano-Bicocca, Italy.
- 2005-present. Full professor (Developmental Psychology), Department of Psychology, University of Milano-Bicocca.
- 2006-2009. Director, Master Degree in Clinical and Developmental Psychology and Neuropsychology, University of Milano-Bicocca.
- 2002-2005. Associate professor, University of Milano-Bicocca.
- 2000-2002. Researcher with tenure, University of Milano-Bicocca.

EDUCATION

- 1998. Ph.D. (Psychology), University of Pavia, Italy.
- 1994. M.Ed. Psychology, University of Padova, Italy.

RESEARCH EXPERIENCE

- 2015 Visiting Fellow, Japan Society for the Promotion of Science (JSPS), Chuo University, Tokyo.
- 2010- 2011. Visiting professor, Birbeck College, London, UK.
- 2002 and 2003. Visiting scholar, Institute of Child Development, University of Minnesota, USA.
- 1998-2000. Post-doctoral fellow, Dept. of Developmental Psychology, University of Padova, Italy.

BOARDS

- 2014-present Board of Research Quality of the University of Milano-Bicocca, member.
- 2012-present. Associate Editor, British Journal of Psychology.
- 2005-2012. Associate Editor, Giornale Italiano di Psicologia.
- 2002-2005. Board of Directors, Associazione Italiana di Psicologia (Italian Psychological Association).

AD HOC REVIEWER FOR SCIENTIFICAL JOURNALS, SOCIETIES AND COUNCILS

Journals

Brain Research; British Journal of Psychology; Child Development; Child Development Perspective; Cognition; Cognitive Development; Developmental Psychobiology; Developmental Science; Infant and Child Development; Journal of Cognitive Neuroscience; Journal of Experimental Child Psychology; Journal of Experimental Psychology: HPP; Neuropsychologia;

Perception; Psychological Bulletin; Psychological Review; Psychological Science; Psychonomic Bulletin & Review; Quarterly Journal of Experimental Psychology; Visual Cognition.

Funding Agencies

Italian Ministry of Education, University and Research (MIUR); Biotechnology and Biological Sciences Research Council (BBSRC), European research Council (ERC).

Conference Review

International Society on Infant Studies (ISIS); Society for Research on Child Development (SRCD).

RESEARCH INTERESTS

The interplay between biological constraints and perceptual experience in the development of neurocognitive specialization, with specific reference to the face processing and the spatial-numerical domains.

My studies involve populations of various age groups, from newborns to young and older adults, and utilize behavioral (eye tracking, looking time measures, mental chronometry) and electrophysiological (ERP, fNIRS) methods.

MAJOR COLLABORATIONS

- Chuo University, Tokyo. Prof. Masami Yagamuchi, Department of Psychology.
- CNRS, Paris, France. Dr. Maria Dolores de Hevia, Laboratoire Psychologie de la Perception.
- University of Vienna, Austria. Prof. Tecumseh Fitch.
- Justus-Liebig-Universitat, Giessen, Germany. Prof. Gudrun Schwarzer, Department of Psychology
- Brock University, Canada. Prof. Catherine Mondloch, dr. Valentina Proietti, Face Lab.
- University of Toronto, Canada. Prof. Kang Lee.

SCIENTIFIC PRODUCTION

Author of two volumes in italian, and more than 70 papers, 50 of which in peer-reviewed international journals (impact factor: max: 5,17, min: 1,73), and more than 130 conference presentations.

ISI Web of Knowledge, August 2017: N=53 papers in international peer-reviewed journals in the period 1996-2017; Sum of the times cited=1207 (1079 without self-citations); Average citation per item=22.8; h-index=19.

Google Scholar, August 2017: Citations= 2287; h index=24.

PAPERS IN INTERNATIONALS PEER-REVIEWED JOURNALS

1. Macchi Cassia, V., Bulf, H., Mc Crinck, K., & de Hevia, M.D. (in press). Operational Momentum during ordering operations for size and number in 4-month-old infants. *Journal of Numerical Cognition*.
2. Bulf, H., de Hevia, M.D., Gariboldi, V., & Macchi Cassia, V. (2017). Infants learn better from left to right: a directional bias in infants' sequence learning. *Scientific Reports*, 7, 2437. doi:10.1038/s41598-017-02466-w.
3. de Hevia, M.D., Addabbo, M., Nava, E., Croci, E., Girelli, L., & Macchi Cassia, V. (2017). Infants' detection of increasing numerical order comes before detection of decreasing number. *Cognition*, 158, 177-188. doi: 10.1016/j.cognition.2016.10.022.
4. Natale E., Addabbo M., Marchis I., Bolognini N., Macchi Cassia, V., & Turati C. (2017). Action priming with biomechanically possible and impossible grasps: ERP evidence from 6-month-old infants. *Social Neuroscience*, 12, 560-569. doi: 10.1080/17470919.2016.1197853.
5. Nava E. Rinaldi, L., Bulf, H., & Macchi Cassia, V. (2017). Visual and proprioceptive feedback differently modulate the spatial representation of number and time in children. *Journal of*

- Experimental Child Psychology*, 161, 161-177.
6. Senna, I., Addabbo, M., Bolognini, N., Longhi, E., Macchi Cassia, V., & Turati, C. (2017). Infants' visual recognition of pincer grip emerges between 9 and 12 months of age. *Infancy*, 22, 389-402. doi: 10.1111/infra.12163.
 7. Bulf, H., de Hevia, M.D., & Macchi Cassia, V. (2016). Small on the left, large on the right: Numbers orient visual attention onto space in preverbal infants. *Developmental Science*, 19, 394-401. doi: 10.1111/desc.12315.
 8. Kobayashi, M., Macchi Cassia, V., Kanazawa, S., Yamaguchi, M., & Kakigi, R. (2016). Perceptual narrowing towards adult faces is a cross-cultural phenomenon in infancy: A Behavioral and near-infrared spectroscopy study with Japanese infants. *Developmental Science*. doi: 10.1111/desc.12498.
 9. Macchi Cassia, V., Mc Crinck, K., de Hevia, M.D., Gariboldi, V., & Bulf, H. (2016). Operational momentum and size ordering in preverbal infants. *Psychological Research*, 80, 360-367. doi: 10.1007/s00426-016-0750-9.
 10. Addabbo, M., Longhi, E., Bolognini, N., Senna, I., Tagliabue, P., Macchi Cassia, V., & Turati, C. (2015). Seeing touches early in life. *PLoS ONE*, 10, e0134549. doi:10.1371/journal.pone.0134549.
